

Thank you for your interest in Mincor. We are very confident that you will be very satisfied with the services we offer. Mincor has a range of services to help you target Latin American and European markets and audiences for your products or services.

As part of our commitment to providing excellent service, you can expect the following:

- A translation of part of your first document FREE of charge for your critique and approval.
- A proofreading time window when you can look at your final document and make changes, at no extra charge—as long as they are not related to style.
- A translated glossary of your terms, approved by you, so the right words of the trade are used in the translation, at no extra charge.

Through the years, we have developed a network of translators who have met certain criteria, located across the world and with whom we maintain constant communication. These people are experts in their language and in their field of knowledge, and their work is edited by another bilingual expert with the same qualifications. Thanks to the speed of the Internet, we are able to deliver high quality work at record time!

Our services also include:

- Marketing, Advertising, Copywriting, and Engineering assistance at no extra cost for delivering your message correctly to your target audience in the foreign language!
- A standardized Latin American version of Spanish to be understood by all Latin American cultures.
- Constant communication via e-mail or telephone regarding terms and protocols for doing business in other countries.
- Language experts in their own native country working on your project that will assure linguistic and cultural accuracy.
- Very competitive rates — among the lowest in the industry!

We have the man power and resources to begin working on your project immediately

We look forward to working with you.

Sincerely,

Adriana Miniño
